Dear sir/madam

I am writing this letter because I don’t people to die from cigarettes. I don’t want to see cigarettes being made because you will get cancer.

Cigarettes are horrible because they cause strokes and lots of cancers and it infects your lungs and clogs them up.

Yesterday we saw some ads about why smoking is bad for you. If you are a parent and have cancer you might die and your kids will be upset and crying. If kids see a boy smoking they think it’s okay to smoke.

Please stop making cigarettes so people don’t get cancer!

Yours sincerely,

Zane Phillips
